

HUNTSMAN

Enriching lives through innovation

12th December 2006

To whom it may concern:

On November 29th 2006 we have organised an "International Customer Event" in the very heart of the Frankfurt Zoo the "Exatorium".

This event was a great success not only due to the surprising location but also to the fact that we worked with two very professional and friendly guys "Junge Junge".

Of course we had a nice show "an Englishman in New-York" but also some close-up and interactive entertainment which were fully appreciated from our customers.

We can only recommend "Junge Junge" !

We stay at your disposal for any further information,

Best regards
